

QuickDoctor

Complete User Manual

<https://quickdoctor.ie>

Version 1.0 · July 2026

For Patients, Doctors & Administrators

1. Introduction

1.1 What is QuickDoctor?

QuickDoctor is an online healthcare platform that connects patients in Ireland with Irish-registered GPs for:

- **Video consultations** — live appointments with booking and secure payment
- **Online prescription reviews** — condition-specific questionnaires reviewed by a GP (from €25)
- **Medical certificates** — sick leave / fit notes reviewed and issued online (€30)
- **Medical records** — prescriptions and certificates stored in the patient portal with PDF download

All consultations and reviews are conducted with the same confidentiality as face-to-face care. Doctors who write prescriptions live and work in Ireland.

1.2 Who can use the service?

The service is available to people **physically located in the Republic of Ireland**. Patients must be **18 or older** unless otherwise stated on a specific service page.

1.3 User roles

Role	Login URL	Purpose
Patient	/login → /dashboard	Book care, pay, view records
Doctor	/login → /doctor	Consultations, prescriptions, certificates
Administrator	/login → /admin	Manage platform, users, content, settings

2. Getting Started

2.1 System requirements

- Modern web browser (Chrome, Safari, Firefox, Edge)
- Stable internet connection
- For video calls: webcam and microphone; join link opens 5 minutes before appointment
- Email address for account verification and notifications

2.2 Creating a patient account

URL: <https://quickdoctor.ie/register>

Step-by-step:

1. Open **Create patient account** (or Register from the login page).
2. Enter **first name**, **last name**, **date of birth**, **email**, and **password** (minimum 8 characters).
3. Click **Send code** next to your email field.
4. Check your inbox for a **6-digit verification code** (valid for 10 minutes).
5. Enter the code in the **Verification code** field.
6. Click **Create account**.
7. You are signed in automatically and redirected to your dashboard (or back to booking if you came from a booking link).

Welcome email: After registration, you receive a welcome email with links to find a doctor and your patient dashboard.

Booking intent: If you registered while trying to book, the site returns you to complete your booking after signup.

2.3 Signing in

URL: <https://quickdoctor.ie/login>

1. Enter your **email** and **password**.
2. Click **Sign in**.
3. You are redirected by role:

- **Patient** → </dashboard>

- **Doctor** → </doctor> (or pending-approval screen if not yet approved)

- **Admin** → </admin>

2.4 Forgot password

URL: <https://quickdoctor.ie/forgot-password>

1. Enter your registered email.
2. Click submit — if an account exists, a **reset link** is emailed (valid 1 hour).
3. Open the link → </reset-password> → enter new password (min 8 characters).
4. Sign in with your new password.

2.5 Becoming a doctor on the platform

URL: <https://quickdoctor.ie/doctor/apply>

Doctors apply separately from patients. See [Section 4.1](#).

3. Patient Guide

3.1 Patient dashboard overview

URL: <https://quickdoctor.ie/dashboard>

After login, patients see:

- **Overview** — upcoming appointment summary, quick actions
- **Appointments** — all bookings and payment status
- **Medical records** — prescriptions and certificates
- **Settings** — profile, data export, account deactivation

Sidebar navigation:

Menu item	URL	Description
Overview	/dashboard	Home dashboard
Appointments	/dashboard/appointments	Bookings & video join
Medical records	/dashboard/records	Prescriptions & certificates
Settings	/dashboard/settings	Account & privacy

3.2 Finding and booking a GP (video consultation)

This is the primary flow for **live video appointments**.

Step 1 — Browse doctors

URL: <https://quickdoctor.ie/doctors>

- View list of **approved** doctors with specialty, fee, and ratings.
- Click a doctor to open their profile.

Step 2 — Doctor profile & slot selection

URL: <https://quickdoctor.ie/doctors/{doctor-id}>

1. Read doctor bio, specialty, and consultation fee (set by each doctor, typically around €49).
2. Select a **date** from the calendar (only days the doctor has availability are bookable).
3. Choose an available **time slot** (15-minute intervals).
4. All times are shown in **Poland time (CET/CEST)** — see [Section 12](#).
5. Optionally add **notes** for the doctor (symptoms, reason for visit).
6. Optionally enter a **coupon code** and click apply to see discounted price.

Step 3 — Payment

1. Click **Book & pay** (or equivalent checkout button).
2. You must be **signed in as a patient**.
3. You are redirected to **Stripe Checkout** (secure card payment).
4. Complete payment on Stripe's page.

Step 4 — Confirmation

- After successful payment, you return to **Appointments** (`/dashboard/appointments`).
- You receive a **confirmation email** with:
 - Doctor name
 - Date and time (Poland time)
 - Appointment reference
 - Fee paid
 - **Join video consultation** link (when Zoom is configured)
 - Meeting password (if applicable)
- The appointment status becomes **CONFIRMED**.

Step 5 — Joining the video call

1. Go to **Dashboard → Appointments**.
2. Open the appointment — **Join** becomes available **5 minutes before** the scheduled time.
3. Alternatively use `/dashboard/video-call/{appointment-id}`.
4. Click **Join** — opens Zoom (or dev placeholder in test environments).

Cancelling unpaid bookings

- Appointments in **PENDING_PAYMENT** expire after **15 minutes** if not paid.
- You can cancel pending bookings from the appointments page.

Reviews

After a **completed** consultation, you may leave a **star rating and comment** from your appointments list.

3.3 Online prescription services (€25)

For conditions listed under **Prescriptions** — no live video required for the initial request; a GP reviews your questionnaire asynchronously.

Available services (examples)

Access from <https://quickdoctor.ie/prescriptions>:

- Contraceptive pill / patch / ring
- Period delay, cystitis, thrush, BV
- Migraine, asthma, hay fever, eczema, acne, rosacea
- Erectile dysfunction, hair loss, stop smoking
- Travel vaccines, HPV, weight management, and more

Each service has its own page with clinical questions and eligibility criteria.

Prescription request flow

1. **Choose service** on </prescriptions> or from the navbar dropdown.
2. **Start questionnaire** on the condition page (e.g. </prescriptions/migraine-treatment>).
3. Answer all steps honestly (suitability, medical history, medications, consent).
4. Click **Submit** on the final step.
5. You are sent to **Secure checkout** (</prescriptions/checkout>).
6. **Sign in** as a patient if not already logged in.
7. Review price (**€25.00** standard) and click **Pay** → Stripe Checkout.
8. After payment:
 - Confirmation email sent
 - Request assigned to a GP for review (usually within **1 business day**)
1. If medically suitable, doctor **issues prescription** in the portal.
2. You receive email notification → view and **download PDF** at **Medical records** (</dashboard/records>).
3. Take the prescription to any **Irish pharmacy** to collect medication (QuickDoctor is not a pharmacy).

Refund: Full refund if the doctor determines you are not medically suitable. See [Section 13](#).

3.4 Medical certificates (€30)

URL: <https://quickdoctor.ie/medical-certificates>

For employer sick leave documentation (electronic certificate — not for Department of Social Protection).

Certificate request flow

1. Step 1 — Form:

- Personal details (name, address, email, phone)
- Acknowledgement (18+, requesting for yourself, not emergency care)
- Symptom screening (red-flag symptoms — seek urgent care if applicable)
- Absence type (Work / Study)
- Reason for sick leave
- Illness timeline description
- **From** and **To** dates (max **7 days** per request)

1. Click **Continue to Payment**.

2. Step 2 — Payment:

- Review total **€30.00**
 - Sign in if required
 - Pay via **Stripe**
1. GP reviews your request (typically within **1 business day**).
2. If approved, certificate issued → email + download from **Medical records**.

Important: This electronic sick leave cert is for employers; for Social Protection purposes, visit a GP in person (stated on the page).

3.5 Medical records

URL: <https://quickdoctor.ie/dashboard/records>

Tabs:

- **Prescriptions** — medication name, dosage, instructions, issuing doctor, date; **Download PDF**
- **Sick certificates** — reason, date range, doctor; **Download PDF**

PDFs are professionally branded QuickDoctor documents suitable for printing or sharing.

3.6 Patient settings

URL: <https://quickdoctor.ie/dashboard/settings>

- View profile information
- **Export my data** (GDPR JSON export)
- **Deactivate account** (with email confirmation)
- Privacy consent records

3.7 Notifications

Patients receive:

- **In-app notifications** (bell icon in dashboard)
- **Email** for bookings, prescriptions, certificates, and service confirmations

See [Section 11](#).

4. Doctor Guide

4.1 Doctor registration & application

URL: <https://quickdoctor.ie/doctor/apply>

Required information:

- Email and password
- First and last name
- **Specialty category** (from admin-managed list)
- **Medical license number**
- Bio and years of experience (optional fields may apply)

After submission:

- Account created with status **PENDING**
- You can sign in at `/doctor` but full portal access waits for **admin approval**
- Check status at `/doctor/apply/status`

Admin actions:

- **Approve** → you receive approval email; account activated

- **Reject** → rejection email with reason; contact support or re-apply

4.2 Doctor portal overview

URL: <https://quickdoctor.ie/doctor>

Sidebar:

Section	URL	Purpose
Overview	/doctor	Dashboard summary
Consultations	/doctor/consultations	All appointments
Prescriptions	/doctor/prescriptions	Issued prescriptions list
Certificates	/doctor/certificates	Issued certificates list
Schedule	/doctor/settings	Availability (redirects to settings)
Settings	/doctor/settings	Profile, fee, weekly hours

4.3 Profile & availability settings

URL: <https://quickdoctor.ie/doctor/settings>

Profile:

- First name, last name, bio
- Medical license number
- **Consultation fee** (in EUR cents — e.g. 4900 = €49.00)

Weekly availability:

- Enable/disable each day (**Monday–Sunday**)
- Set **start time**, **end time**, and **slot length** (default 15 minutes)
- Patients can only book on enabled days within these hours
- Times use **Poland time (CET/CEST)**

Important: Profile must be marked complete and availability set before patients can book you on the public directory.

4.4 Consultations list

URL: <https://quickdoctor.ie/doctor/consultations>

View all appointments assigned to you:

- Video consultations (confirmed/completed)
- Async **prescription review** requests (paid questionnaire)
- Async **medical certificate** requests (paid form)

Filter by status and open any row for details.

4.5 Consultation room (core clinical workspace)

URL: <https://quickdoctor.ie/doctor/consultations/room?id={appointment-id}>

This is where doctors manage each patient encounter.

Patient panel shows:

- Patient name, date of birth, gender
- Patient notes from booking
- **Questionnaire answers** (for prescription/certificate async requests) — JSON summary
- Whether prescription/certificate already issued

Tabs:

Notes

- Write and save **clinical notes** (visible to you; stored on appointment)
- Click **Save notes**

Prescription

- Add one or more medicines: **name, dosage, instructions**
- **Issue prescription** (or update if already issued)
- Patient notified by email and in-app alert
- Download **Rx PDF** preview

Certificate

- Enter **reason, start date, end date**
- **Issue certificate** (or update)
- Patient notified; PDF available in their records

Complete consultation:

- Mark appointment **completed** when finished
- For video calls, use **Start meeting** / host Zoom link from the room or `/doctor/video-call/room?id=`

4.6 Video consultations (doctor)

URL: <https://quickdoctor.ie/doctor/video-call/room?id={appointment-id}>

- Join as **host** via Zoom link (when Zoom credentials configured on server)
- Your name is passed to Zoom for patient identification
- Join available around scheduled time (5 minutes before for patients)

4.7 Prescriptions & certificates lists

- **Prescriptions:** </doctor/prescriptions> — table of all prescriptions you issued with patient names and dates; PDF download
 - **Certificates:** </doctor/certificates> — same for medical certificates
-

5. Administrator Guide

URL: <https://quickdoctor.ie/admin>

Administrators manage the entire platform. Sign in with an admin account.

5.1 Admin dashboard

URL: </admin>

- Total patients, doctors, appointments, revenue statistics
- Recent user registrations table
- Quick platform health overview

5.2 Doctor applications

URL: </admin/applications>

Workflow:

1. Filter by **PENDING**, **APPROVED**, or **REJECTED**
2. Open an application to review license, specialty, bio
3. **Approve** — activates doctor account; approval email sent automatically
4. **Reject** — enter reason; rejection email sent

5.3 All doctors

URL: </admin/doctors>

Read-only table: name, email, specialty, status (PENDING/APPROVED/REJECTED/SUSPENDED), consultation fee.

5.4 All patients

URL: `/admin/patients`

Read-only table: patient name, email, phone, registration date.

5.5 Specialty categories

URL: `/admin/categories`

- Create and manage specialty categories (e.g. General Practice, Dermatology)
- Used when doctors apply and on public doctor listings

5.6 Appointments

URL: `/admin/appointments`

- View **all** appointments across the platform
- **Manually create** a confirmed appointment:
 - Select patient, doctor, date/time
 - Useful for phone bookings or support cases
 - Bypasses Stripe (admin-created = confirmed)

5.7 Payments

URL: `/admin/payments`

- List recent payment records
- Amount, status (PENDING, SUCCEEDED, FAILED, REFUNDED), linked appointment

5.8 Coupons

URL: `/admin/coupons`

Create promotional discount codes:

Field	Description
Code	e.g. WELCOME10
Type	PERCENT or FIXED (euro amount)
Value	Percentage or cents off
Min order	Optional minimum spend
Max uses	Optional usage cap
Expiry	Optional end date
Active	Enable/disable

Patients enter codes during **video booking checkout** or **service checkout**. 100% discount codes complete booking without Stripe (if under minimum thresholds).

5.9 Financial reports

URL: `/admin/analytics`

- Revenue and appointment analytics
- Recent payments summary

5.10 System settings & maintenance mode

URL: `/admin/settings`

Maintenance mode:

- **Enable** — public marketing site shows maintenance message; new bookings blocked for patients
- **Custom message** — text shown to visitors
- **Admin bypass** — admins can still browse site when enabled
- Bypass paths always work: `/login` , `/register` , `/dashboard` , `/doctor` , `/admin`

Use during deployments or emergencies.

Links to coupons, CMS, and categories from this page.

5.11 Site content (CMS)

URL: `/admin/cms`

Manage all marketing and legal page content without code changes.

Capabilities:

- **Sync all pages** — creates CMS entries from built-in page registry
- Edit any page: Home, About, FAQs, each prescription landing page, consultation pages, legal pages
- **Section types:** Hero, Text, FAQ, Call-to-action, Features, Stats, HTML blocks, etc.
- **Publish / Draft** status per page
- **SEO** title and description
- **Blog posts** — type `BLOG_POST` ; appear on `/blog` and `/p/{slug}`

Note: `/admin/blog` in the sidebar is a placeholder UI; manage real blog content in **Site content (CMS)**.

5.12 Admin workflow summary

Task	Where
Approve new doctor	Applications
Change site homepage text	CMS → Home
Add blog article	CMS → New BLOG_POST
Create discount code	Coupons
Put site in maintenance	Settings
Book appointment for patient	Appointments → Create
View revenue	Analytics / Dashboard

6. Public Website & Marketing Pages

6.1 Main navigation

Link	URL
Home	/
Consultations	/consultation (+ female/male/Portuguese/Spanish sub-pages)
Medical Certificates	/medical-certificates
Prescriptions	/prescriptions (+ 27 condition pages)
Find a GP	/doctors
For doctors	/doctor/apply
Contact	/contact
Book appointment	/doctors

6.2 Legal & information pages

Page	URL
Patient Guide	/patient-guide
FAQs	/faqs
Terms of Service	/terms
Privacy Policy	/privacy
Cookie Policy	/cookies
Refund Policy	/refund-policy
Blog	/blog

6.3 Contact

URL: /contact — contact information and inquiry display (operational handling outside the app).

7. Payments & Pricing

7.1 Payment provider

All card payments are processed by **Stripe** (PCI-compliant). QuickDoctor does not store full card numbers.

7.2 Price list

Service	Price	How to access
Video consultation	Doctor sets fee (default ~€49)	/doctors/{id}
Prescription review	€25.00	/prescriptions/* → checkout
Medical certificate	€30.00	/medical-certificates
Coupon discounts	Variable	Applied at checkout

7.3 Payment flow (all types)

1. Patient authenticated (patient role)
2. Order created with status **PENDING_PAYMENT**
3. Redirect to Stripe Checkout
4. On success → webhook confirms payment → appointment **CONFIRMED**
5. Confirmation emails sent
6. For video: Zoom meeting created automatically (when configured)

7.4 Slot holds (video only)

- Unpaid video bookings hold the slot for **15 minutes**
- After 15 minutes, hold expires and slot becomes available again
- Slots are only **reserved after payment succeeds** (not at checkout start)

7.5 Failed / conflict payments

If two patients pay for the same slot simultaneously, the second payment is **automatically refunded** via Stripe and the appointment cancelled, with an explanatory message.

8. Video Consultations

8.1 Technology

- **Zoom** integration (when `ZOOM_*` credentials configured on server)
- Patient receives **join URL**; doctor receives **host URL**
- Optional meeting password in confirmation email

8.2 Before the call

- Test camera/microphone
- Join from a private, quiet location
- Join link active **5 minutes before** scheduled time
- Use **Dashboard → Appointments** or email link

8.3 During the call

- Doctor may take clinical notes in consultation room
- Doctor may issue prescription or certificate during or after the call

8.4 After the call

- Doctor marks consultation **completed**
- Patient can leave a **review**
- Documents available in medical records

8.5 Concurrent meetings

Default Zoom Pro allows **one concurrent meeting** per Zoom account. For multiple simultaneous doctors, Zoom Business + concurrent meeting add-on is required.

9. Prescriptions (Online)

9.1 What is included

- GP clinical review of your questionnaire
- Prescription issued to your account if medically appropriate
- PDF download for pharmacy

9.2 What is not included

- Dispensing medication (visit a pharmacy)
- Controlled drugs where online prescribing is not appropriate (each page lists exclusions)
- Emergency or urgent care

9.3 Clinical responsibility

All prescribing decisions are made by an **Irish-registered doctor** after reviewing your answers. False or incomplete information may result in refusal and refund per policy.

9.4 Full prescription service list

See [/prescriptions](#) for the live list. Includes but not limited to:

Contraception, period delay, thrush, BV, cystitis, migraine, asthma, hay fever, eczema, acne, rosacea, cold sores, psoriasis, erectile dysfunction, hair loss, stop smoking, hypothyroidism, HPV vaccine, travel vaccines, jet lag, weight management, self-injectable, anaphylaxis, and more.

10. Medical Certificates

10.1 Use cases

- Employer-requested sick leave documentation
- Up to **7 consecutive days** per request
- Work or study absence

10.2 Safety screening

The form asks about serious symptoms (chest pain, stroke symptoms, etc.). If you have these, **do not use this service** — seek urgent/emergency care.

10.3 Delivery

- Email notification when ready
- PDF in patient medical records
- Tamper-evident branded PDF format

10.4 Limitations

- Not for Department of Social Protection claims

- Not a replacement for emergency assessment
- Subject to GP approval; refund if unable to help

11. Email Notifications

Event	Recipient	Content
Registration OTP	Patient	6-digit code
Welcome	New patient	Dashboard & find doctor links
Password reset	User	Reset link (1 hour)
Video booking confirmed	Patient	Time, doctor, fee, Zoom link
New booking	Doctor	Patient name, time, host link
Prescription issued	Patient	Medications summary, records link
Certificate issued	Patient	Dates, reason, records link
Prescription request paid	Patient	Review in progress
Certificate request paid	Patient	Review in progress
New service request	Doctor	Questionnaire to review
Doctor approved	Doctor	Portal link
Doctor rejected	Doctor	Reason

Email provider: Resend (from `noreply@quickdoctor.ie` when configured).

12. Timezone & Scheduling

- **All appointment times** display as **Poland time (CET/CEST)** — `Europe/Warsaw`
 - Booking calendars, confirmation emails, and dashboards use this consistently
 - Ireland and Poland share the same CET/CEST offset year-round in practice for patient display
 - Server scheduling uses Warsaw timezone for slot generation
-

13. Refunds & Cancellations

13.1 Policy summary (patient-facing)

Documented on [/refund-policy](#) , [/patient-guide](#) , and [/terms](#) :

Situation	Outcome
Cancel within 3 hours of purchase (or next working-day window)	Refund to original card (1–10 working days)
Doctor deems treatment unsafe/unsuitable	Full refund or safe alternative
Prescription already issued after cancellation period	No refund
Patient fails to provide requested info within 3 days	No refund
Video format unsuitable	Refund + advise local GP
Slot conflict after payment (technical)	Automatic refund

13.2 In-app cancellation

- **Unpaid** appointments: cancel from appointments page or wait for 15-minute expiry
- **Paid** refunds for policy cases: contact support (no self-service refund button in app)

13.3 Marketing guarantee

“**Full refund if our doctors cannot help**” — shown on prescription and certificate pages.

14. Privacy, GDPR & Account Settings

- **Privacy policy:** [/privacy](#)
 - **Cookies:** [/cookies](#)
 - **Patient data export:** Dashboard → Settings → Export my data (JSON)
 - **Account deactivation:** Settings → Deactivate (confirmation required)
 - **Consent records** stored for regulatory compliance
 - Doctor–patient confidentiality applies to all online consultations
-

15. Maintenance Mode & CMS

15.1 Maintenance mode

When enabled by admin:

- Public visitors see maintenance message
- Patients cannot start new checkouts
- Admins (and optionally bypass) can still access portals
- Use during upgrades or incidents

15.2 CMS content management

Admins edit site content at `/admin/cms` without developer involvement:

- Homepage hero, features, stats
- Service landing pages
- Legal text updates
- Blog posts

Sync registry button ensures new pages from software updates appear in CMS.

16. Demo Accounts

For training and UAT (change passwords in production):

Role	Email	Password
Admin	admin@quickdoctor.com	password123
Doctor	doctor@quickdoctor.com	password123
Patient	patient@quickdoctor.com	password123

Seed data includes: Dr. Sarah Johnson (approved GP, €49, Mon–Fri 9–17), sample appointments, specialty categories, and homepage CMS content.

17. Troubleshooting

Cannot receive OTP email

- Check spam folder
- Verify `RESEND_API_KEY` and DNS on server (admin/dev)
- Click **Resend** on register page (new 10-minute code)

Payment succeeded but appointment not confirmed

- Wait 30 seconds and refresh appointments page
- Check email for confirmation
- Admin: verify Stripe webhook endpoint `/api/webhooks/stripe`

Cannot join video call

- Join only within **5 minutes before** start time
- Verify Zoom credentials on server
- Try different browser; allow camera/microphone

No available slots

- Doctor may not have enabled that day in settings
- Slot may be taken — try another time
- Unpaid holds expire after 15 minutes

Doctor not visible on Find a GP

- Doctor must be **APPROVED**, **profile complete**, and have **availability** set

Prescription page says “Request submitted” without payment

- Ensure latest site version deployed (`service-checkout` feature)
- Must complete **Stripe checkout** at `/prescriptions/checkout`

Wrong time on appointment

- All times are **Poland (CET/CEST)** — not device local time if different
-

18. URL Quick Reference

Public

URL	Purpose
https://quickdoctor.ie	Home
